## Strategic goals

---

The UPV's strategic objectives are grouped into 5 strategic goals:

### SUSTAINABLE UPV<sup>1</sup>

OSUS1: Position the UPV so that its three campuses achieve carbon neutrality by 2030.

OSUS2: Develop stable and alternative sources of funding.

OSUS3: Adapt the structure of the UPV for flexible management of shared resources, which allows it to face the changes required by society.

### INTERNATIONAL UPV<sup>2</sup>

OINT1: To be a university of international reference in STEAM studies, responding to the needs of society and stimulating the vocations of present and future students.

OINT2: To strengthen and consolidate alliances with universities and companies of international prestige to benefit the socio-economic environment.

### RELEVANT UPV<sup>3</sup>

OREL1: To intensify the positive impact of academic knowledge on the socio-economic fabric and the environment.

OREL2: Consolidate the reputation and leadership of the UPV in social transformation.

OREL3: To foster the transdisciplinary nature of research, innovation, and transfer activities, promoting their permeability towards teaching.

OREL4: Develop partnerships with social institutions and public administrations.

### VITAL UPV<sup>4</sup>

OVIT1: To accompany talent and promote the well-being and involvement of UPV staff by building an organisation that anticipates and continuously adapts to the needs of society.

OVIT2: To strengthen the recruitment and retention of research talent by improving working conditions at different stages of the research career.

OVIT3: To generate an academic offer in which each student is at the centre of the lifelong teaching-learning process.

OVIT4: Improve employability and increase entrepreneurship of students and staff.

### EXCELLENT UPV<sup>5</sup>

OEXC1: Promote transformative teaching models that incorporate and train in the arts, science, and cutting-edge technology.

OEXC2: To stimulate the generation of knowledge of excellence and its valorisation in collaboration with companies and institutions.

OEXC3: Improve stakeholder experience by integrating management systems through inter-unit collaboration.

---

<sup>1</sup> Sustainable: That it is compatible with the available resources with the environment and in the future.

<sup>2</sup> International: That brings together people and institutions from various nations.

<sup>3</sup> Relevant: That is interesting, applicable and according to the needs of people and organizations.

<sup>4</sup> Vital: Endowed with great energy, and also, that it is essential for something.

<sup>5</sup> Excellent: That it is very good or that it stands out.
